Sir:

The above-identified Application was allowed on May 28, 2010. Upon review of the application papers, the undersigned noticed that certain foreign language documents cited in the SB/08 attached to the August 9, 2007 Restriction Requirement are lined through as not being considered since no copies were received.

Applicant notes that the lined through documents were cited in the International Search Report that was submitted upon entering National Stage. As noted in the December 2, 2004 Transmittal, it was assumed that the references cited in the International Search Report would be supplied directly by the International Bureau, but if further copies were needed, they would be provided upon request.
